About Me

For about three years, I have been studying mobile development because I see its potential and truly enjoy the process 😊

Soft skills

- Sociability
- Time management
- Creativity
- Attention to details
- Desire to learn

Technical skills

- Xcode
- Xcode Instruments
- Git, Github, Fork
- Python, Flask, FastAPI
- Arduino
- Leetcode 100+ solved tasks

iOS skills

- Advanced SwiftUI, Basic UIKit
- async/await, GCD, Combine
- URLSession, Alamofire
- CoreData, Realm, Pure SQL
- MVVM, MVI, TCA
- SOLID, DRY
- Firebase: Analytics, Crashlytics, Firestore, Storage, RTDB
- StoreKit 2, Adapty
- AppsFlyer

Experience and Learning

- Course 100 Days of SwiftUI – Hacking with Swif
- DevRush Marathon (8 stream)
- Pet-projects: GITHUB
- Winner of the competition “Engineers of the Future 2024”: [sources](#)

Freelance

- Puffless - smoking quitting app

Tech stack: SwiftUI, CoreData, MVVM, FB Analytics & Crashlytics, AppsFlyer, StoreKit 2 & Adapty, Lottie, Widgets, App Intents

- Chrony - an application that helps implement the 5 minutes rule concept

Tech stack: SwiftUI, Realm, TCA, FB Analytics & Crashlytics, Adapty, Rive, Live Activities

- AIM - task tracker with statistics,

Tech stack: SwiftUI, Realm, MVVM, FB Analytics & Crashlytics, AppsFlyer, Adapty, Lottie
